GULTY: IS HELD RUSH INTO GOLD CAMP

Says: 'Twenty dog teams daily are travelling into the Rec Lake Gold Camp, according to Joe Sweet, well known local prospector who returned from that field last night af ter a trip extending over four weeks. He speaks of the new camp and an anticipated still greater boom in the Spring. According to the prospector the trail in from Hudson to Red Lake, 125 miles long, is in good condition but he says that a shorter route from McIntosh about 50 miles farther west, presents difficulties that induce most of prospectors to choose the longer trip

### PLAN GRADING OF BUTTERFAT PAY PREMIUMS TO FARMERS WHO FURNISH BEST PRODUCE

cale of premiums payable to farmers for high-content butterfat, have been formulated by creamery operatives, according to Howard Clarke of the Citizens' Dairy Company, who said today every effort is being made to recapture a waning pres-tige in the British market for Ontario butter and to hold the home trade against any possible competition from Australia and

"From April 1 on, the cream will be graded, "said Mr. Clarke, "All butterfat grading special over first grade will carn a premium of 1 cent per pound, while that grading first will be paid an excess of 3 cents a pound over second."

This plan, he believed, would develop a higher quality of butter and do much to offset the danger to the Canadian butter industry, inseparable from the Australian competition.

KITCHENER LEADS GROUP Toronto, Feb. 1.—Saturday night Kitchener, defeated the fast Osgoode Itali seniors by 4 to 1, and took pot-nession of first place in the group

standing.

The tricky visitors, who were mines the services of George littler knew to: much inside hockey for the Legality and won a well-merked victory. They appear to be the torm to beat for the omer sextets, Parkdate, Osgoode and Peterbory, are strictly in the running. It is the closest race staged in many years, with only one game separating the leaders from the fourth placers.

The belief of those who witnessed the phenomena was that is amplemite had landed in the neighborhood and the chief astronomer of the Dominion government says that an effort will be made to find it. The fullity of looking for the visitor is quite apparent. Perhaps it may be dis-covered by accident later on. The meteorite has a fasnation for human beings because of the theory it is from another planet, even from one that may have It is from another planet, even from one that may have been glinhtegrated in some catartophe that could be described as the end of that world. The scientists are, goet that these fragments could keep hurling through space for years, until they are faully attracted to an ex-isting-planet, when the latter would have a visit from a simp planet, when the latter would have a wint from a motortic. There are plenty of campage of redeservi-that lives landed upon the earth. In volume, they range from a few pound to several tone. THE OTTAWA SITUATION

Canadian Labor World:

"The Professit Romes has met and by a majority of three Printineers had declated to keep the Ring Government. In office, though field in power, for a short time longer." The interesting thing to: Laber ja the fact that the Ver Labor members of the Romes Menter. J. S. Woodsworth and A. A. Henge, by volting apparatus the Meighen amendment, saved the Girenment Youn defeat. Had have look just the Author Menter of the Romes Menter of the Romes and the Menter of the Romes and Rom amendment, saved the Givernment Ysom defeat. Had their votes been the other way, the Government Preps would have been in a minority and under the circum-stances only one course, yould have been left to them, that of arking the Governor-General to request the Op-

esition to form a Government.

In the opinion of the "Canadian Labor Press"... odsworth and Heaps have placed themselv Messra. Woodsworth and Heaps, have placed themserves to a very pocaliar position, one that we feel no amount of explanation will be able to satisfy their constituents that the policy they pursued was the right one. Had the Labor rote been cast for the Meighen amendment it did, not, necessarily mean that Woodsworth and Heaps were in favor of a Conservative policy, but it would have indicated that they had not confidence in the King

If we avaning the record of Woodsworth as a If we examine the record of Woodsworth as a mean-ber of the House during the past four years, we find that crepeatedly, both in the House and outside he has condemned the King Government for the policy toward the workers of Canada and nowhere can we find a trace the workers of Canada and nowhere can we find a trace of Woodsworth, M.P., making any statement favorable to the Government. During the Nova Scotla coal strike—during the Postal Workers' strike, Woodsworth work-ed himself into a fury against the King Government, yet we find him supporting that Government when its defeat meant a change; WHY?—if we accept the explanation given by Mr. Woodsworth to the Labor Party Porum on Sunday, January 24th it was because whilst the Labor members had no confidence in the Gov ernment, if they voted against them they would only be putting the Conservatives into power and he expressed the view that Labor had no confidence in either of the

In view of the vote cost by the Labor members, this atatement can only be regarded as absurd or hypocritical because their action showed that they had some confidence in the King Government as compared with the Con-tervative party and tacked on the Labor voters of Winnipeg to the tail of Liberalism.

Mr. Woodsworth at the same meeting stated that had the Government been defeated it would have mean another election and when uttering this statement, must have known that such a course would have been contrary to all precedent, especially that precedent laid down

It is a sight for the gods to see men who have de ed from the housetons the iniquities and sins of the present Liberal Government, the tyrannies and hyp class, men who have shouted that the present Govern-ment has lamentably failed in securing the workers of this country against unemployment and who, they have this country against unemployment and who, they claimed, been the means of creating misery and po for large sections of people in the Dominion, voting to secure that Government in office. This spectacle must surely make the workers of Canada reflect seriously ies of so-called "Labor representatives", pon the pro when seeking election for office.

Is not the real reason why Mesers. Woodsworth and Heaps do not wish to vote against the Government, because of the \$4,000 Sessional Indomnity and traveling expenses granted to Federal members? There is a g reason to believe that these are weightier reasons the any of the contradictory arguments they have advant to reconcile their illogical and inconsistent position.

Few people would care to risk their lives in unknown country without a guide.

Yet every day your pocketbook ventures into the unknown-to the market where products new to you are sold-where worthy and unworthy goods beckon to you alike-where it is even easier to waste your income than to protect it.

Everyone should read advertisements as guides to buying. They point the way to safe purchases. They tell you of the merits of worthy products They give you a picture map of where to go to get what you want. They save your time, just as they guard your money.

Read the advertisements. Put them to work for you. Buy advertised products and you are on familiar ground all the time.

### The Public's Chief Concern

IN the matter of telephone service we believe the pub-lic's chief concern is in two points:—

People want to know that they can count upon getting a complete telephone service of high quality, day and night, now and in the future.

[2] People want such service at a price that is as low as sound business practice permits, and less than the value of the service received.

These points are the essence of true public service, and this company is just as deeply concerned in them as is

At the present time, as we have explained, an increase in rates is needed to assure the continuance of the kind of service our subscribers require

[1] Our carnings per telephone have declined, due to the great development of lower rate service, such as two-party line.

[2] Large additions to plant at present day prices, as com-pared with the low price levels of a few years ago, have increased the fixed charges to be provided from our

[3] The low rate of depreciation suggested by the Board of Railway Commissioners, as a temporary measure, is now known to be inadequate to protect the investment.

A reasonable adjustment of the wide difference between present telephone rutes and the cost of doing business is an obvious necessity.

Such technical subjects as property valuation, rate of return, and depreciation expense have an important part in determining telephone rates: Casual discussion of such subjects is often misleading for it can deal only briefly with matters that must be gone into in great detail to be dearly understood.

These and all other factors will be presented in detail to be fully considered by the proper public authority, the Board of Rall-way Commissioners for Canada.

The booklet "Telephone Service and Rates" states the facts of our position. A copy has been mailed to all our subscribers. If your copy has not reached you, we shall be glad to send you one.

**BANNERS SPRING** 

Flung out in Advance--their new patterns and lovely color herald a new season.

In from the sunny South, where the fashionable world has gone to play, and across the sea from athe Paris openings, news keeps drifting in of Spring, 1926, and the clothes that will greet the new and the crotnes that will give the law year. Two things—pattern and color—have been rising in importance. New designs have been cleverly thought out, and abbite pastel colors (crude colors are in the minority) appear in unexpected but delightful combinations.

#### CHINA AND SOVIET

"Anti-Red Imperialism" federation has be ed in Pekin to combat the machinations of the bolshe-viki in Chini. The charge is made that agents of the soviet government have "bought" the workers, the students and the "rascals" over to their cause, and the supersus and the Tracess over to their cause, and the new organization piedges fixelf to rid the county of the menace. Having falled in their efforts to spread the fiames of revolution in western counties, the Russian te are turning their attention with redoubled pretext that the soviet authorities were trying to get the railway under their own control. The release of the official has nelleved the strain to some extent, although the greatest suspicion still prevails. That sus-picion is not confined to the Chinese. It is pretty gen tricts in which the British are especially interested seem be the principal focus for their mischievous activities Local residents are calling upon the British gover for a greater display of firmness in dealing with the disturbing elements. Japan, too, is holding aloof from Russia, and it is certain that the propaganda among the Chinese of all stations has had its effect. The boyott of British goods is another intolerable factor in the ion: There is evidently great need of an "Ant Red Imperialism" organization to countered

but victum of the English race.
But what about regular Were our ancestors as
off with their hearty and generous fars as we are
much less. Facts and statistics say no. In the old
a man was old at 50. The swenge upon of huma a man was old at 50. The average span of human life was not much over 30. Now it is between 50 and 60 and a man at 50 is considered to be in his prime. Died has much to do with the change. Our ancestors at more than we do and ate heavier food; but we live lonthan they, did.

> ANTI-EUROPEAN FRENZY RE-KINDLED AT DAMASCUS

London Feb. 5.—Reuter's correspondent at Damascus, Syria, says the massacre of forty Christians in-the village 

gands in the public square in Damascus.

This caused bad feeling and brought threats that three Europeans would be hanged in revenge. Letters also were sent to the Catholic patriach at Maiden, threatening to

burn his house because some of the witnesses for the pr cution at the trial of Hassan Elkharrat's son were Cathoinco.

Incidents of this sort have caused bitter feeling among the population against Europeans generally, the correspondent says

## In The Wake Of Sport News

That was a great moment, near the finish of last night's game, when Soup Goyer played cat and mouse with Brockville around Belleville's own net, and then scorched down the ice and socked in the tenth goal.

Well, Maroons won the pipes all right, all right, what? Well, Maroons won the pipes all right, all right, whal? Welr would have made a great old Ivanhoe in the days when men were animated corned beef cans and used battle-axes to fight with. OT SHABBILY TREATED

Stratford-on-Avon, England, Feb. 6.—Anne Hathaway at last has found staunch defenders. Sir Sidney Lee put her in pretty bad in his "Life of Shakespeare", showing that in pretty had in his "Late of Shakespeare, another the immortal bard intended to give his wife a bitter snub when he willed her only hils "Second Best Bed". S. O. Addy, an antiquarian, has gallantly risen to the defense of Addy, an antiquarian, has gallantly risen to the defense of Mrs. Shakespare who long has rested under the suspicion of having been pretty attention. Soores of other defenders are contending that the "Second Best Bed" of the poet may have been the one Anne found most 'confortable and consequently they arroge it is unfair to assume that the bard was anubbing his wife when he did not will be his "Best Bed."

her his "Best Bed." Sir Sidney Lee has agreed to put Anne right in the next edition of his life of Shakespeare. He agrees that Anne was really not necessarily so shabbily treated after, all Under the law, he saws, she received one third of her hus band's estate without being specifically mentioned in the will and the "Second Best Bed" was a special gift.

### BUTTER COMPETITION

Australia's plan of bonusing butter exports, kn as the "Patterson scheme", has been causing Ontario daffymen some anxiety. As explained by Dr. Ruddick, in our news columns the other day, it is proposed to make a levy of 2 centr a pound on all butter made in the coun a lety of 7 centra a position on an out-one of the color.

The fund thus created is to be used, if the plat carrier, to pay a bointy of 8 centra a pound on the plat ting experied. While only, about one-third of the tot belter: produced is exported, it is contended that the value of the place produced is exported, it is contended that the value of the place produced with the raised of the text of the beauty on what is ablepted abroad.

The scheme is a purely voluntary one, and its sucoperation depends on every manufacturer joining how that they have not yet done, and it remains to be seen if they will do so. What the consumers, who he rol of Government in Australia, are going to do ut it, is open to question. If it should succe may not be quite the same thing as lifting yourself

### WILL PROBE CHARGES

A special committee of parliament has been to investigate the charges of Hon. H. H. Stev on minister of trade and commerce, that amureling or lowledge of the government. Nothing short of a the quiry must be on non-party lines. Mr. Meighen consented to co-operate in the probe and it will go bac for a period of twenty years, if Hon. G. H. Bolvin, pre ms, has his way. Whether harren are substantiated or not, the investigation be checked as promptly and effectively as po order to serve the interests of the opposition; while th finance minister, Hon. James Robb, insinuates that "boo finance minister, Hon. James Robb, leggers and smugglers" know they have a better chan of carrying on their nefarious commerce under a Co servative regime than when the Liberals are in power.
It is to be hoped that there will be no more calling o

where knews as an attempt of the treatment of the present of the p it should be. There must be no prejudging of the is-sues, however. 'An accused is to be considered inno-cent until he has been proved' guilty by the properly onstituted authorities. # Guides

Few people would care to risk their lives in unknown country without a guide.

Yet every day your pocketbook ventures into the unknown-to the market where products new to you are sold-where worthy and unworthy goods beckon to you alike-where it is even easier to waste your income than to protect it.

Everyone should read advertisements as guides to buying. They point the way to safe purchases. They tell you of the merits of worthy products. They give you a picture map of where to go to get what you want. They save your time, just as they guard your money.

Read the advertisements. Put them to work for you. Buy advertised products and you are on familiar ground all the time.

Advertising removes all doubt from the buyer's path.

New York, Feb, 9.—Petting parties, cock tails, short skirts and rouge are defended as permissable for women, under modern day conventions by Max D. Steuer, attorney in brief, opposing the appeal of Thomas, H. Symlington, railway equipment manufacturer, from a jury decision denying him divorce.

Morals are not only a matter of geography but of eras, Mr. Steuer said, in a brief filed yesterday. "To-day society recognizes and respects the rights of married and single recognizes and respects the rights of married and single to meant and a center in Buttiwomen to enjoy and exercise far more latitude and recit. In our generation it has been our task to die, to mark time to hold on; we have been dying and marking time and holding on so that our children may carry out their glorious destiny." Thus concludat cell Canon Seager, Provost of Trinity University, Toronto, who was the guest speaker at the tery remarkable and wonderful banquet at the Quinte Hotel last evening at which Mr. John Elliott, Chairman of the Board of Education was host to the Board the Inspector and teachers of Belleville, to the city of cil and prominent people of the city, including its ministers and

manufacturers and merchants. It was truly a "get-together," as the current phrase has and it accomplished its unique purpose,

Mr. Elliott's purpose was that the Trackers and the ryansinder of the city be brought more clockly tockers, orget inly the Trackers and the Bornd be more clocky associated.

# Guides

Few people would care to risk their lives in unknown country without a guide.

Yet every day your pocketbook ventures into the unknown-to the market where products new to you are sold-where worthy and unworthy goods beckon to you alike-where it is even easier to waste your income than to protect it.

Everyone should read advertisements as guides to buying. They point the way to safe purchases. They tell you of the merits of worthy products. They give . you a picture map of where to go to get what you want. They save your time, just as they guard your money.

Read the advertisements. Put them to work for you. Buy advertised products and you are on familiar ground all the time.

Advertising removes all doubt from the buyer's path.

Ogdensburg, N.T., Feb. 10—Maronied since yesterday in it is the north channel of the St. Lawrence river, twelve men, let the crew of the ferry Charles Lyon, plying between Ogdensburg and Prescott, awaited resumption of effort to-said any to free the vessel from an ine-field just above the Long model of the control of the contr Sault Rapids. Attempts to release the ferry were abandoned last night when the hazardous conditions of ice and darkness made the work difficult.

To-day 25 men equipped with saws and ice-cutting tools were ready to cut a channel through which the vessel might safely pass.

Tie Game and Three Win Pastimes and Wanderers

Neither of Which Have Lost To Meet

A battle royal right from the drop of the puck, is expected in the city league fixure shited for immorrow hight when Pastimes are to rattle

their sticks in opposition to Wander ers. The determination with which each team will try to get the edge of the other may be gauged from the

Pastimes have played two games and tied them both, so, despite the they haven't won, they have also the consolution of not yet having lost.

These two teaques are regularly put ting up four bits hockey at fiftee crats, and deserve the biggest crowd the areas will hold.

# Guides

Few people would care to risk their lives in unknown country without a guide.

Yet every day your pocketbook ventures into the unknown-to the market where products new to you are sold-where worthy and unworthy goods beckon to you alike-where it is even easier to waste your income than to protect it.

Everyone should read advertisements as guides to buying. They point the way to safe purchases. They tell you of the merits of worthy products. They give you a picture map of where to go to get what you want. They save your time, just as they guard your meney.

Read the advertisements. Put them to work for you. Buy advertised products and you are on familiar ground all the time.

· Advertising removes all doubt from the buyer's path.

#### BRITISH AGRICULTURE

most convinced free trader is forced to admit that, what ever advantages Britain may have derived from free trade, agriculture has lagguished under it. Richard Cob den, the great spottle of free trade, predicted that, ev-entually, the industry which would benefit most from entailty, the industry which would benefit most from the abolition of the corn laws and the general removal of daties from imports was agriculture. But, tile his other prediction that within free years all other constricts would follow the British example and embrace free trade, this one was not fulfilled! Since 1870 British agriculture has itselfly declined. There was temporary revival during the war years, when the production of food was a patriotic duty; but since the war the decline

has been more rapid than ever.

Politicians perceive that a policy designed to promote agricultural revival is a good card to play. Lloyd and the second rounds the set; there is deeper, always sensation, he should be speech from the throne to indicate any is little short of revolutionary. The present Ontario government has already shown considerable good business judgment, and it is not likely that it will be stampeded into a contract which might in the end lead to another cry for an embargo.

Chrysler's record of the past two years looms as one of the most brilliant in the motor car industry.

Canada and the rest of the world have bought more than 280 million dollars worth of cars of Chrysler manufacture since the Chrysler was introduced just two years ago.

In the quarter of a century that preceded the coming of the Chrysler, there is nothing in the industry remotely approaching this over-whelming Chrysler popularity.

Here is recorded a most significant tribute. Not only to those supreme superiorities with which the first Chrysler sounded a new note. in motor car engineering and craftsmanship; but also to the later refinements in performance, beauty and comfort which—with the addi-tion of the new Chrysler Imperial "80" to the Chrysler "70" and the Chrysler "58" now offered at electrifying new low prices—have immeasurably increased Chrysler's leadership.

### TENTATIVE PLANS STREET NAMING EXPENSIVE BUT COMMITTEE IS BUSY WITH THIS INVOLVED TASK

"An adequate system of street-mane signs is an expensive proposition." declared Mayor Graham to-day when asked by The Italelligencer whether any steps were being taken, or would be likely to be taken, by City Council toward labelling the thorough-fares of Beliville so as to make them recognizable to those persons not so fortunate as to have acquired a knowledge of the city's street-nomenclature from

their early years.

A committer is at present engaged on going thoroughly into the question, acording to His Worship, and the main difficulty confronting this committee is that of arriving at a system economical enough to warrant the expenditure, while at the same time being perfectly modern and adequate to the requirements of a city of Belleville's size.

"You perhaps do not realize," said Mayor Gra-

rou pernaps do not reanze, said mayor dra-ham, "how many street corners there are in this city of ours." He agreed that the number, counting each intersection to be labelled as two, since it will necessitate the erection of two seperate name plates, would probably exceed six hundred.

"Estimate as to cost of various signs have been secured by the committee," said the mayor, "and the secured by the committee, "said the mayor, "said the matter will be more thoroughly gone into as soon as the question of minimum cost is finally settled. There is, of course, the castlon of labor in erecting the signs to be considered, be concluded.

We feel that during the duration of this long strike, (nearly six months) we have dealt with the public of Belleville in the matter of their coal supply as fairly, decently and business-like as was humanly possible under stress conditions.

We first warned the public of the impending strike and urged everyone to put in their coal during the summer and fall. After the strike on we distributed our stock of hard coal as equitably as possible AND NEVER RAISED OUR FRICE TO THIS DAY BEYOND SIXTEEN-FIF-way PREF ATO. TY PER TON.

We reserved a small quantity—barely sufficient to take care of charitable institutions and cases of sickness and charity.

We secured supplies of the very best substitutes ne secured supplies of the very next substitutes price, but have kept down prices of POCAHON-TAS and COKE to reasonable figures, several dollars per ton lower than these fuels were sold at in many other places.

Present

For present use we have on hand sufficient PO-CAHONTAS NUT. STOVE, EGG, and LUMP to keep everyone supplied until Hard Coal ship-ments commence to arrive, at reasonable prices. We also have several cars of ALBERTA coat en route. This will sell at \$14.

We have arranged for Hard Coal shippenets from the very first that will be shipped to Canada. It, days to two weeks. We can be relied on to take care of all demands are antinum price with our HIGHEST GRADE HARD COAL—THE BEST THE MINES PROUUCE, at all times also the best domestic Coke and Focahontas, both excellent fuels.

We have been serving the people of Belleville for a quarter of a century. Our policy will al-ways continue to be as it has for those 25 years, to protect those who have entrusted us with their confidence, and to maintain at all times the

# Out in Tweed

Just as Spring makes an appeal like has of no other reason-always sure of a welcome, eagerly looked forward to, and yet always bringing a joy that its unexpected and altospether nw. os Spring styles are wondered about long before the robins come, and yet when they burst upon us it as always with gomething unexpectedly nice—some-thing that is entirely right.

### The Style Story

Coate estually take first place in the story. And perhaps the most outstanding news about asymmetric coats for fighting in the complete virtum to force of tweed, and light lowers, or varied by freches to bright blue or red bown, and with a touch of coder on the narrow coller. Short and straight, nearly abrays double-breastly collection of the contract of the contr

their charms, breed into, the whole story in reads. Soft wool materials, covert cloth and velocus are made into coak that have a more feemine six, with graceful faces and bridge on mobiledry at the acide. Though this secson is more classed than last, those two important words, cut and color will sount for moss. And the colors are these:

Brown tones-beige, sand, tan, cinnamon. Red tones-Bois de Bose, rust, copper, garnet.

Some grey and green and, hat of all, navy blue, which is coming back into favor rapidly. Color has never been more important. Spring, 1928, is assured of being gay with handeds of beautiful new shades. You will be interested in our display of the newest in Spring costs. Every few days brings more of them—every one attractive in a different way.

# The Car Of Traditional Quality

UALITY that is traditional is quality that is born of quality.

The first Ford was a quality car. The Ford cars that are coming off the assembly line today are quality cars.

For twenty-one years Ford quality has been constant. Only this constant quality has made possible the constantly increasing production that has distinguished Ford among motor cars.

The world's confidence in this quality is the most valued, and hence the most guarded of Ford assets.

This is the reason the world has given leadership to Ford.

# Protecting your money

A MANUFACTURER in an obscure little town builds a new product.

Within a year or two, thousands of women in every corner of America buy that product-and benefit by its merits.

What gives you this confidence in the value of goods made by a man perhaps thousands of miles away?

Advertising. Advertising brings you news of the new article. It tells you of its merits. It convinces you of its value. It protects your investment.

Products that are widely advertised are worthy of your faith. You buy from honest, neighborly folk when you buy from their dealers.

It pays you to read the advertisements and to know advertised products. Buying them protects your money.

# Protecting your money

A MANUFACTURER in an obscure little town builds a new product.

Within a year or two, thousands of women in every corner of America buy that product-and benefit by its merits.

What gives you this confidence in the value of goods made by a man perhaps thousands of miles away?

Advertising. Advertising brings you news of the new article. It tells you of its merits. It convinces you of its value. It protects your investment.

Products that are widely advertised are worthy of your faith. You buy from honest, neighborly folk when you buy from their dealers.

It pays you to read the advertisements and to know advertised products. Buying them protects your money.

IF THE "MODERN" CLEANED IT-IT'S C-LE-A-N ! MEN! DO YOU KNOW THAT "MODERN" DRY CLEANING PROLONGS THE LIFE OF YOUR CLOTHES?

It's a fact though. Proper cleaning and pressing of your garments will lengthen their life and save you money.

Like many others, you may have had the erroneous idea that cleaning injured your gar-ments. But actually dirt ruins the fabric and Dry Cleaning properly done, preserves it and those who realize this are money in pocket thru the extra wear obtained.

The "Modern" can save you money, too—and at the same time keep you looking your best.

### A Great Year ~ A Great Car~ and Lower Prices

More than a quarter of a million Dodge Brothers Motor Cars were built and sold; yet demand was far in excess of production—and continues to mount.

To meet this world-wide need for a smart and dependable motor car, Dodge Brothers, Inc., and their subsidiary com-panies have recently completed a \$10,000,000 program of expansion, vastly increasing production and lowering the cost of manufacture.

As a result Dodge Brothers (Canada) Limited, were en recently to announce a schedule of prices that has re-tionized all previous standards of motor car value.

Prices all the more impressive because they apply to a de-pendable and trusted product made still better in many vital respects—

Instant engine response and elasticity. Stylish bodies finished in rich and distinctive colors.

Exceptional driving vision. And the most important advance in steel body construction since Dodge Brothers pioneered in building the first all-

### Protecting your money

A MANUFACTURER in an obscure little town builds a new product.

Within a year or two, thousands of women in every corner of America buy that product-and benefit by its merits.

What gives you this confidence in the value of goods made by a man perhaps thousands of miles away?

Advertising. Advertising brings you news of the new article. It tells you of its merits. It convinces you of its value. It protects your investment.

Products that are widely advertised are worthy of your faith. You buy from honest, neighborly folk when you buy from their dealers.

It pays you to read the advertisements and to know advertised products. Buying them protects your money.

### LLYS-KNIGHT Sedan \$ 2100 100 Jun Bury

The New Willys-Knight "76" is a master-work of

engineering genius.

To the world renowned advantages of the Knight sleere-valve engine—(smoothness, long-life, simplicity, economy)—have been added revolutionary achievements in six cylinder engineering. The result is the New Willys-Knight "90"—a car that in speed, power and pick-up outperforms anything that was ever built of it as size or type or class.

And as a crowning achievement this new creation is available to a welcoming public at the price of the ordinary poppet-valve six. World-Wide Recognition of Superiority

Makers of the finest; fastest and costllest cars of Europe have long since endorsed the outstanding superiority of the Knight sleere-valve engine. A study of the equipages of Royalty, and of the winning racing cars of Europa demonstrates this beyond the shadow of a doubt.

Unparalleled Efficiency

IN CELLAR, ALIGHT TO PROTECT FROM FROST 150 BARRELS OF APPLES-HEAVY LOSS OCCASIONED-DETAILS

Fire originating at about 2 o'clock this morning, destroyed the home of Mr. R. N. Bird, four miles south of Stirling. Mr. Bird who shared his large frame farm home with his son. nar. Bird wao snared nis large frame farm home with his son, Lewis, was awakened to find the south half of the house, in which Bir, and Mr. Lewis Bird reside, a mass of flames which had gained such headway that'it was only by a narrow margin, that the elder Mr. and Mr. Bird escaped. The elder Mrs. Bird was forced into the bitter cold, clad only in her night dress.

was forced into the bitter coid can only in are ugan was.

AUSE OF CONFLAGRATION

While the cause of the fire is not definitely known the
blaze is believed to have started from a store in the basement.

This store had been kindled-to protect from frost 150 barrels

of apples which Mr. Lewis Birth and prepared to ship to-day to

Marmora These together with another hundred and fifty bags of apples and two or three hundred bags of potatoes were destroyed, representing alone a loss of over one thousand, dol lars, independent of the home and furnishings.

FIGHTING FIRE IMPOSSIBLE

Mark's neighbor and the state of the st be made to save any of the upstairs furniture and but little of little of the furniture in the lower rooms and few of the firm little of little of the furniture in the lower rooms and few of the fine old family reclica were salvaged from the blazing building.

NEIGHBORS CARED FOR FAMILY

Directly the neighbors were awakemed by the reflection of K., c. and R. in the neighbor were awakemed by the reflection of K. c., of finallion. In the first, they hastened to the assistance of the Bird family, aid, ing them in every way possible and taking the different men-bers of the family to their homes.

Mr. Bird who is about 70 cm.

Mr. Bird who is about 70 years of age, is today little worse of by the for the night's excitement. Mrs. Bird is suffering from nervous of the Provi ness. The elder Mr. Bird is well known throughout the district. His father Mr. James Bird was president for many years of the Halloway Cheese Factory.

## The Time Proven "Sixes" and World's Largest Sellers

For any closed car you will pay almost as much as the Essex Coach costs. Why accept the limitations of a "Four" or lesser "Six", when in price, terms of payment and economy of operation Essex is just as easy to own, and gives the qualities of the most wanted "Six" type in the world?

Because of simplicity the Super-Six patents, in Both Hudson and Essex, have always give manufacturing advantages that permit a lower selling price than is possible with more complicated types. And further economies result from their position as the world's largest builders of "Sixes"—and third largest builders of motor cars.

The economies of this greatest volume production are passed on to buyers in prices, which everyone knows, are below all comparison.

engineering genus.

To the world renowned advantages of the Knight electr-valve engine—(smoothness, long-life, simplicity, economy)—have been added revolutionary achievements in sit cylinder engineering. The result is the New Milys-Knight. "90—a car that in speed, power and pick-up outperforms anything that was ever built of its size or type or class.

And as a crowning achievement this new creation is available to a welcoming public at the price of the ordinary poppet-valve six.

World-Wide Recognition of Superiority

Makers of the finest, fastest and costllest cars of Europe have long since endorsed the outstanding superiority of the Knight sleere-valve engine. A study of the equipages of Royalty, and of the winning racing cars of Europe demonstrates this beyond the shadow of a doubt.

Unparalleled Efficiency
